ABSTRACT

This bibliography is a union list of 188 holdings in City University of New York (CUNY) libraries on the subject of open education. It includes materials on British primary schools, the integrated day, and more specifically, books dealing with the psychology and methodology behind these terms. Books, sections of books, conference preceedings, and bibliographies are included. Most were published from 1964-1975. The list is arranged alphabetically by main entry, and each entry designates at which library the book is available and call number. A title index is attached. (KP)

LACUNY Occasional Papers

A publication of the Library Association of the City University of New York.

Note to contributors: manuscripts, typed and double-spaced, may be submitted to Ida B. de Lowe, Chairman, LACUNY Publications Committee, Baruch College Library, 156 East 25th Street, New York, NY 10010. All manuscripts will be read and evaluated by at least three reviewers. Views expressed in this series do not necessarily represent the official position of LACUNY.

Subscription price is $ 8.00, and it includes the LACUNY Journal. Individual issues are priced at $ 2.00 Address orders to Kathleen Meier, Business Manager, LACUNY Journal, Hunter College Library, 695 Park Avenue, New York, NY 10021.

These books deal with various aspects of open education, British primary schools, the integrated day, and more specifically with the psychology and methodology behind these terms. Generally, we have omitted items labeled as nongraded schools, alternative schools, free schools, etc., although they share many aspects with open education.

The core of this bibliography was originated in 1970 before the Library of Congress had established a subject heading and classification number for "Open plan schools." Pauline Rothstein adopted it for Lehman College at about the same time as the beginning of the CUNY Union Catalog (now dormant because of budget cuts) located at Hunter College. With Vira Hinds' assistance at City College, visits to Baruch College and the Graduate School Library, plus continued checking of the CUNY Union Catalog this has become a true union list for most of the CUNY colleges. A final check was made on September 29, 1975 in the OCLC data base for the most recent imput from those CUNY Libraries using OCLC for cataloging.

Please note that call numbers may vary from those listed. For exact numbers, check the card catalog of the library being used. Also, many of these books will be available at libraries other than those listed here, due to the timelag in filing, misfiling, forgetting to note a location symbol on the Union Catalog card, etc.

A title index follows this alphabetical listing by main entry.
